## 2. Topics of Business activities

# Products and services in Information Infrastructure Business

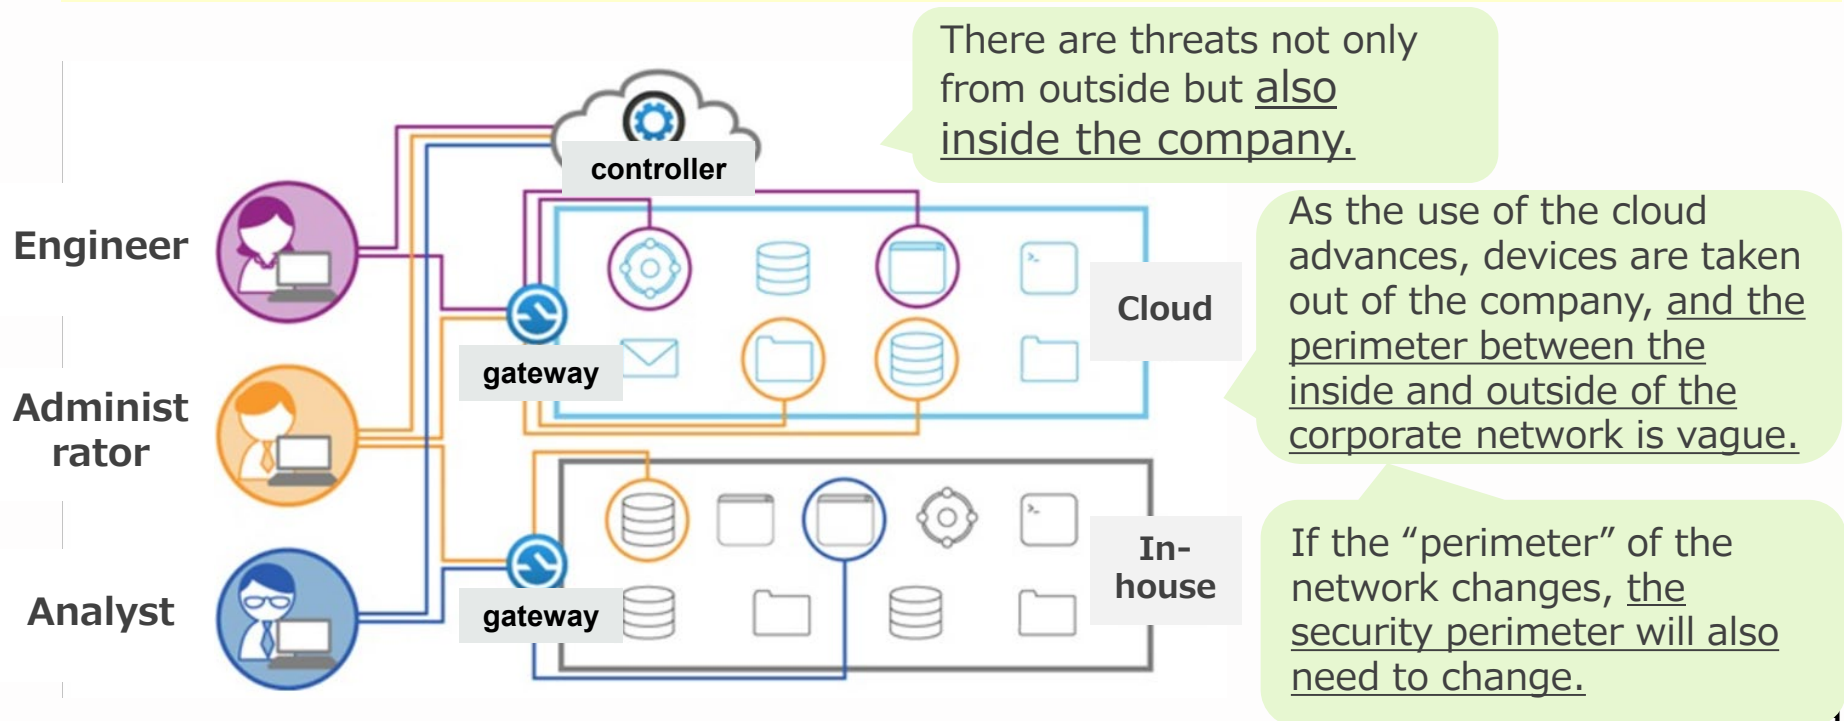

The next-generation secure access solution product “AppGate SDP” made by Cyxtera Technologies Inc, based on the 「**zero trust model**」 was released for the first time in Japan.

※SDP is a new framework that allows secure access to information assets.  
(SDP = Software-Defined Perimeter)

## 「zero trust model」 :

**“do not trust the user, the device, or the network”  
(Approach based on the ethical doctrine that human nature is fundamentally evil)**

The next-generation secure access solution product “AppGate SDP” made by Cyxtera Technologies Inc, based on the 「**zero trust model**」 was released for the first time in Japan.

## Resolves “**security concerns**” and “**location issues**” arising out the use of SSL-VPN (Virtual Private Network).

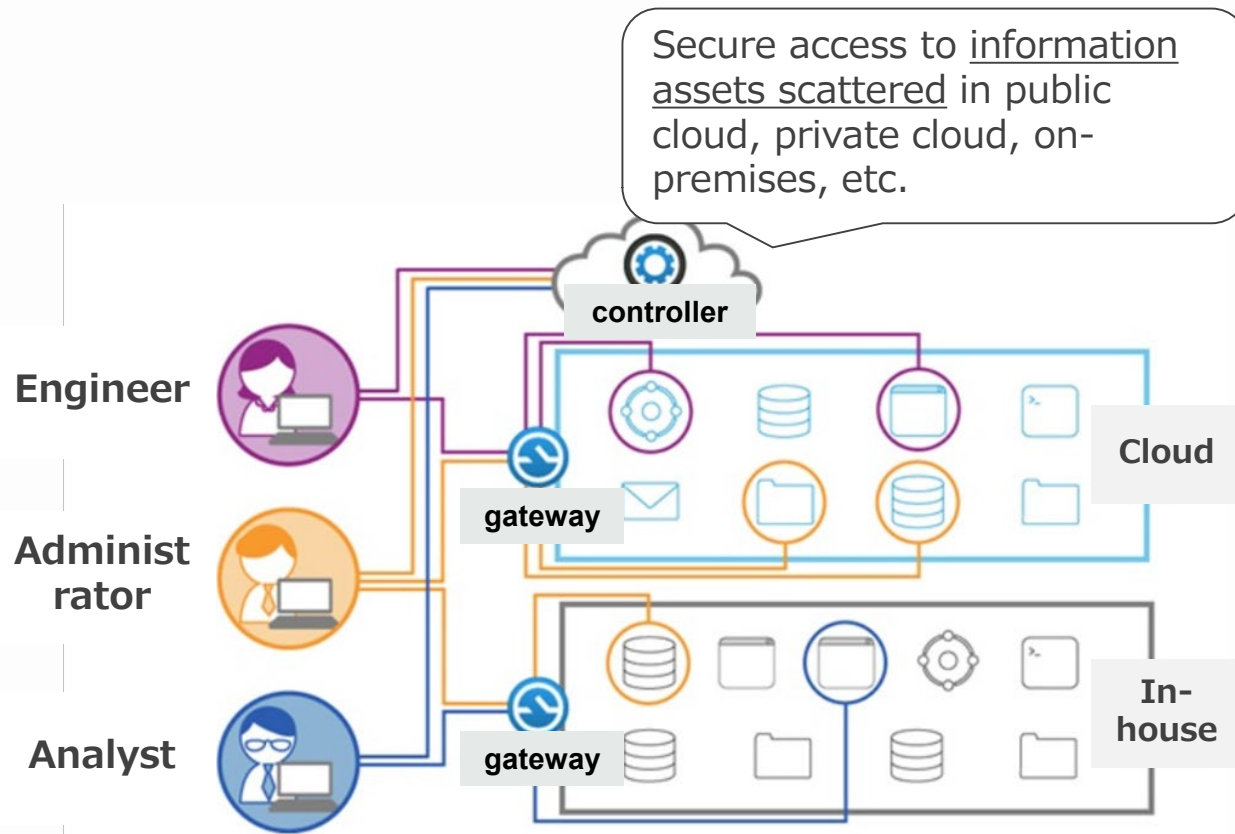

Perform device and user authentication before granting access

After being authenticated, allow access with the minimum access rights

Allow connection. And continuous monitoring and control after connection is permitted

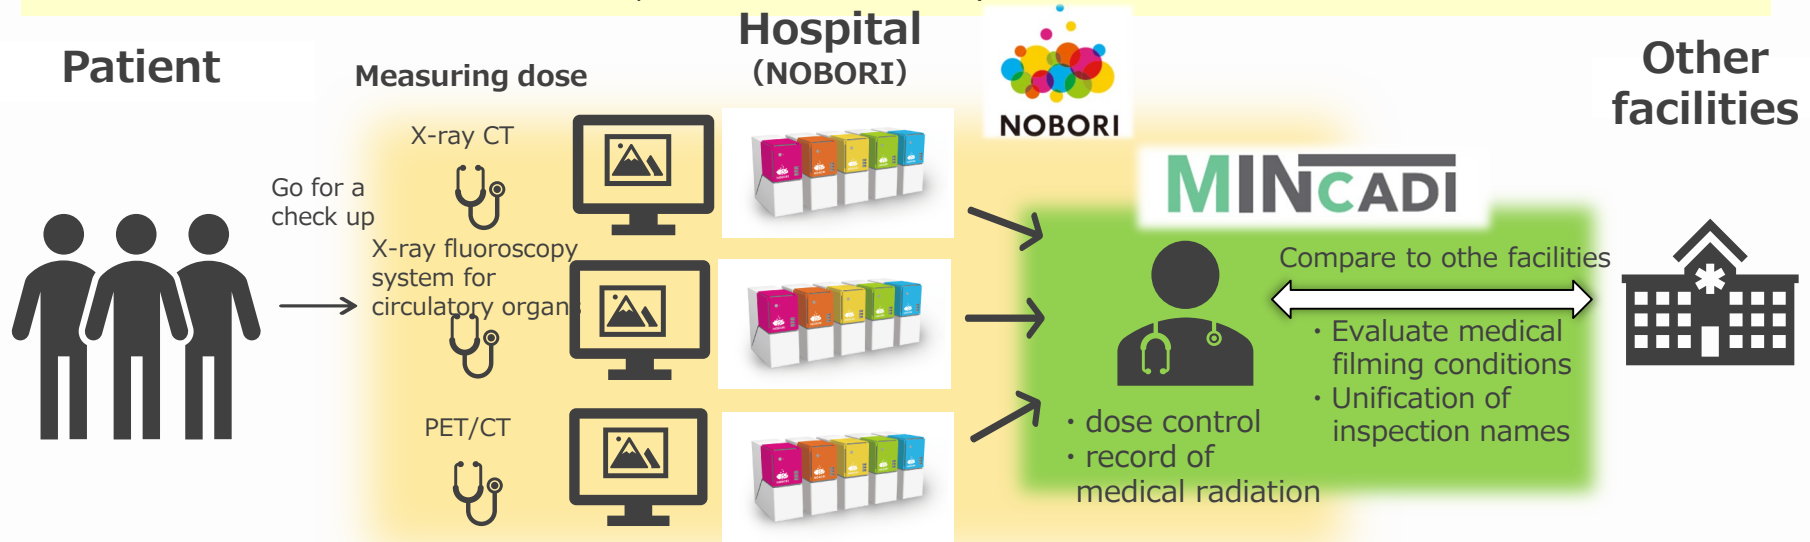

## NOBORI

### “MINCADI” added to “NOBORI PAL”

\* MINCADI : Provided by A-Line Co., Ltd. It is solution to optimize to control medical radiation dose per patient, medical filming conditions for each inspection by automatically getting information from medical images and inspection equipment such as CT.

### <Medical radiation dose control in medical field>

**Point !** **Being obligated to record and manage medical radiation dose from next April.** (Target; X-ray CT, X-ray fluoroscopy system for circulatory organs, PET/CT, SPECT/CT and Radioisotope for medical treatment)

### ■ Merit of “NOBORI” users

Can easily start using this solution by paying only a monthly fee without any new equipment or any additional installation fee

Date	Contents
<b>April</b>	Business alliance between NOBORI Ltd. and Nihon Medi-Physics Co., Ltd.
	Capital and business alliance between NOBORI Ltd. and A-Line Co., Ltd.
	Okinawa Cross Head Co.Ltd. started a new cloud solution service that realizes Internet isolation that allows safe use of the Internet

	Conducted demonstration experiments to improve accuracy of RM credit rating using AI with Risk Monster.com
	Acquired exclusive distributorship rights for the test management tool "TestRail"
	Selected as the Noteworthy IT Strategy Companies2019 (2 consecutive years)
<b>May</b>	Cross Head Co.Ltd. Acquired APN Advanced Consulting Partner certification
	Started providing solutions to improve contact center productivity with AI (Integration of voice recognition / automatic summarization with CRM system)
<b>June</b>	Okinawa Cross Head Co.Ltd started joint verification of the possibility of inter-regional data center collaboration with JR Kyushu System Solutions Co., Ltd.
	Casareal Co., Ltd. signed training partner agreement with JetBrains

# 3. Medium-Term Management Plan "GO BEYOND 3.0"

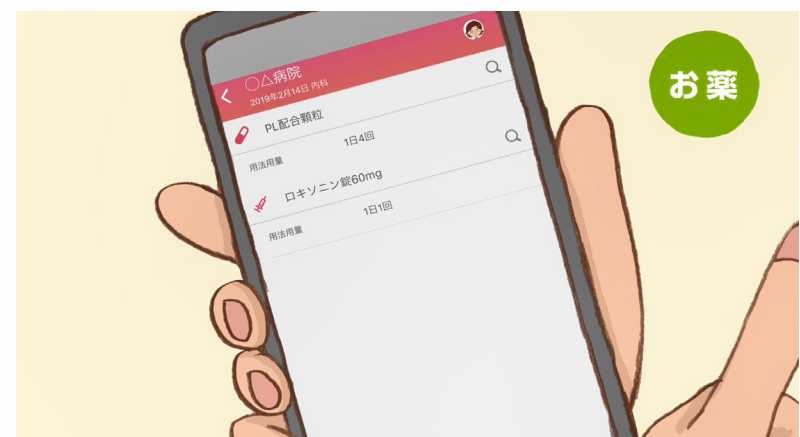

We continue business strategy of TMX 3.0

- **Strategic and accelerated promotion of cloud-related businesses**
- **Pursuit of security and safety**

- 1 Diversification of business operating structure (conclusion of a business/capital alliance, cooperation with universities and research institutions, open innovation)
- 2 Accelerated servicization (in the whole areas)
- 3 Utilization of data (including usage of AI)
- 4 Enter B2C businesses
- 5 Rapid expansion of businesses in overseas markets (next step out of market research phase)
- 6 Strengthen business management foundation (cross-group/effective utilization of human resources and technology, new value created by combination of expertise accumulated in each filed, investment in human resources and development of next-generation management, Recruitment/human resource development/evaluation/retention based on corporate philosophy)
- 7 M&A (including usage of treasury stocks)

## NOBORI

PHR (Personal Health Record) service for individuals (for patients)

## TechMatrix Premium Support powered by TRINITY

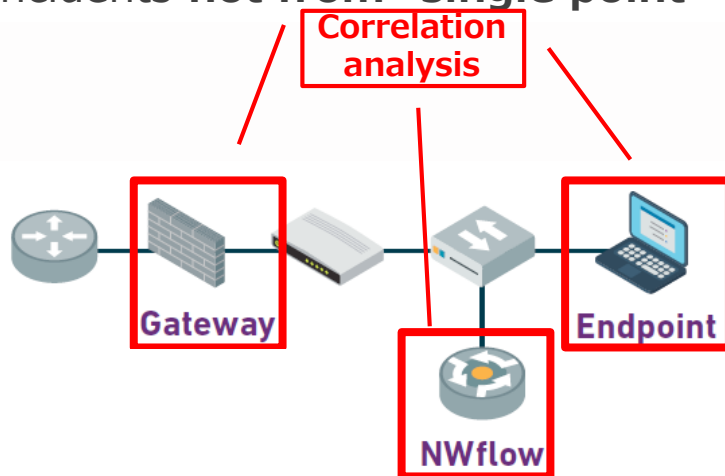

Integrated security monitoring service using correlation analysis rules created based on hundreds of threat scenario patterns originally developed by TechMatrix

※TRINITY is TechMatrix's original service to undertake operations and monitoring for ICT infrastructure.

### ■ Issues of conventional single device monitoring

- 1) Conventional single monitoring results in a **“point” analysis** of events.
- 2) If **the person in charge of operation** and **the monitoring vendor are different for each product**, the investigation, Information sharing, and **primary response are delayed**.
- 3) Because encrypted communication is increasing and sophisticated attack techniques are prevailing, **communication difficult to be monitored and analyzed is increasing**.

■ Our comprehensive integrated security monitoring service detects cyber security incidents **not from “single point” but from “multiple points”**

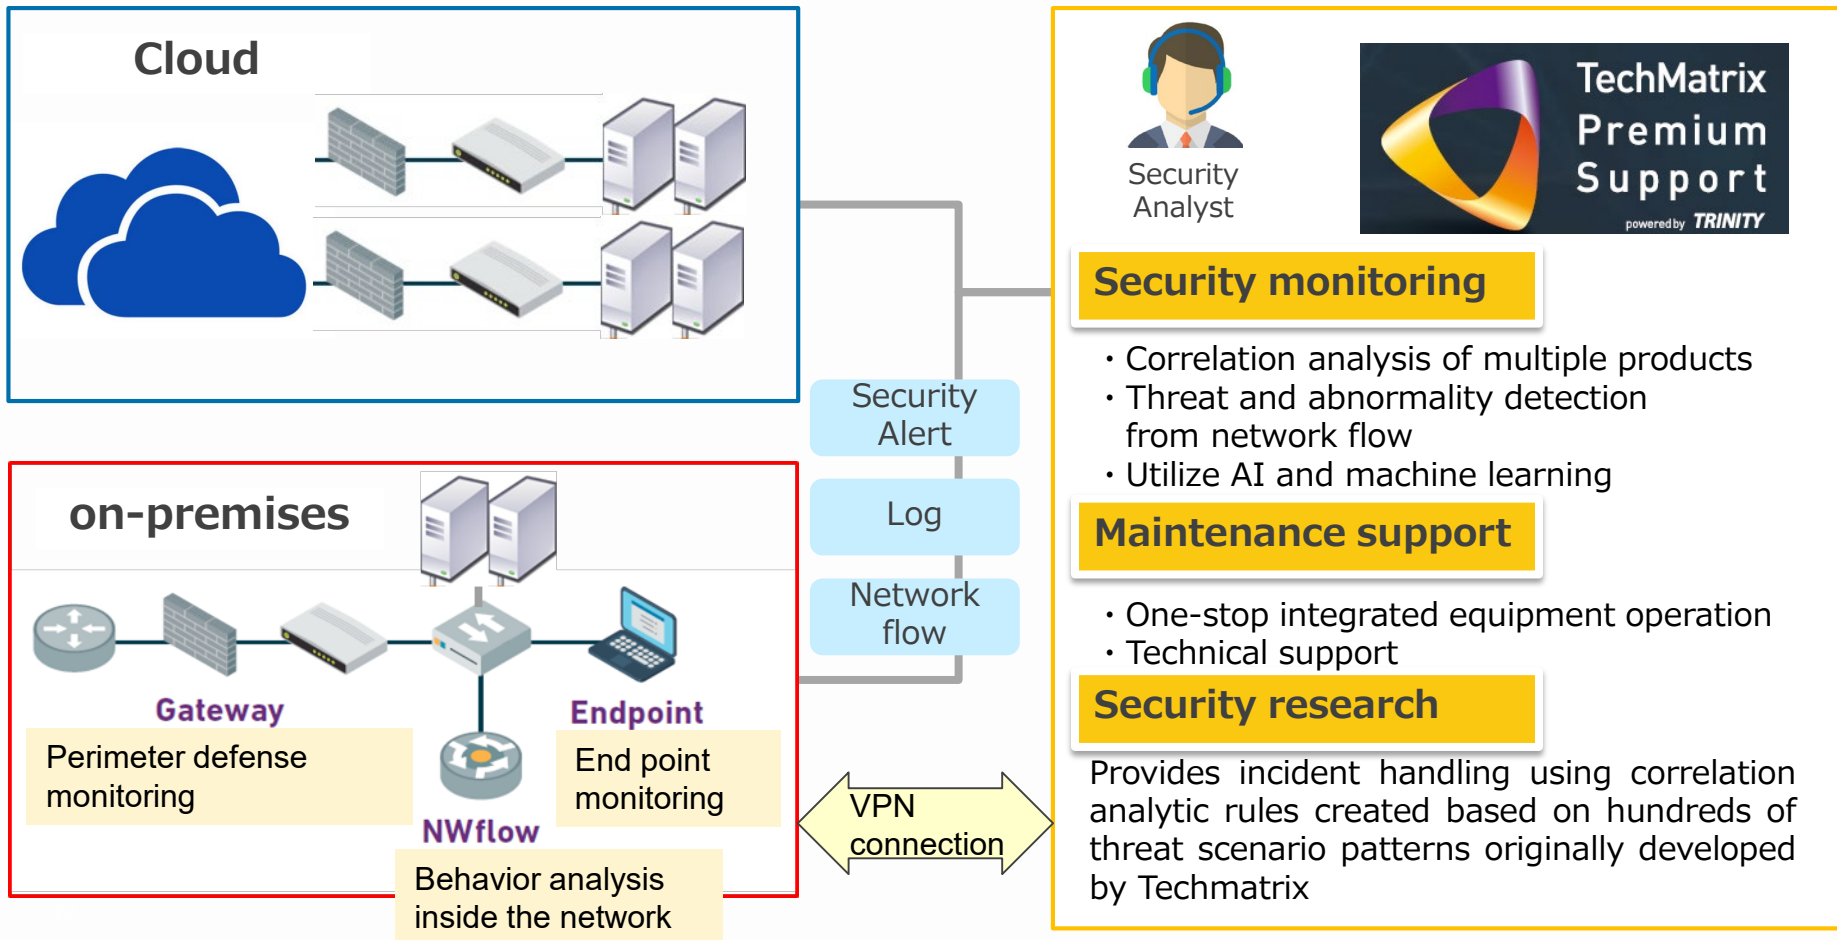

「TechMatrix Premium Support powered by TRINITY」, **our comprehensive integrated security monitoring service** analyzes correlation using data captured at the gateways, at the end-points and from network flows (not from “single point” but from “multiple points”) within the enterprise network, which can detect a variety of security incidents and strengthen the cyber security platform to be able to protect enterprises from unknown malware.

## TechMatrix Premium Support powered by TRINITY

Provides "comprehensive threat detection and visualization" and "security operation efficiency". We will strengthen the cyber security platform to be able to protect enterprises from unknown malware.

※TRINITY is TechMatrix's original service to undertake operations and monitoring for ICT infrastructure.

# Planned value of GO BEYOND 3.0

## Increased net sales and operating income continuously

# Planned value of GO BEYOND 3.0

- Information Infrastructure Business
- Application Services Business

# Change of well-balanced business

## Information Infrastructure Business

### Net sales

FY 03/18 (result)      FY 03/21 (forecast)

### Operating income

FY 03/18 (result)      FY 03/21 (forecast)

# The IT professional group who creates a better future

# 4. Business Models

**Point!**

A cloud service for healthcare information "NOBORI". We store, share and utilize valuable medical information securely in a cloud environment.

**Free initial investment !**

**No space required !**

**No engineer required !**

**NOBORI CUBE**

**TechMatrix**

**NOBORI**

**High security**

- We started to provide NOBORI in Cloud PACS market so quickly. Medical Institutions can deploy NOBORI at a low price and in a short period of time.
- The number of medical facilities using NOBORI has been increasing by introduction to large-scale hospitals and through strong partnership.
- We provide a platform for other healthcare services "NOBORI PAL".

# CRM field

**Point!**

Enhancing the competitiveness of customers' businesses by CRM system.

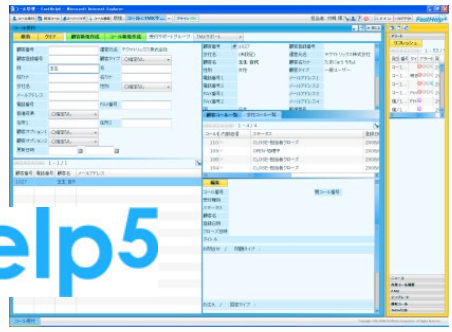

- Contacts about products
- Contacts after purchase

Products

## FastHelp5

Unified management of purchase histories and the past Q&A's

Quick search !

Quick response to the customers' Inquiries !

Improvement of customer satisfaction !

**Point!** One-stop solution from Techmatrix.

## One-stop solution

One-stop solution for system design, integration, maintenance, operation and monitoring services.

## Professional service with expert knowledges

Techmatrix provides security monitoring services based on its in-depth knowledge on the products it delivers, although other security vendors provide basic services for a wide variety of products.

**Point!**

Every internet-connected device can be a target for cyber-attacks in the IoT era.

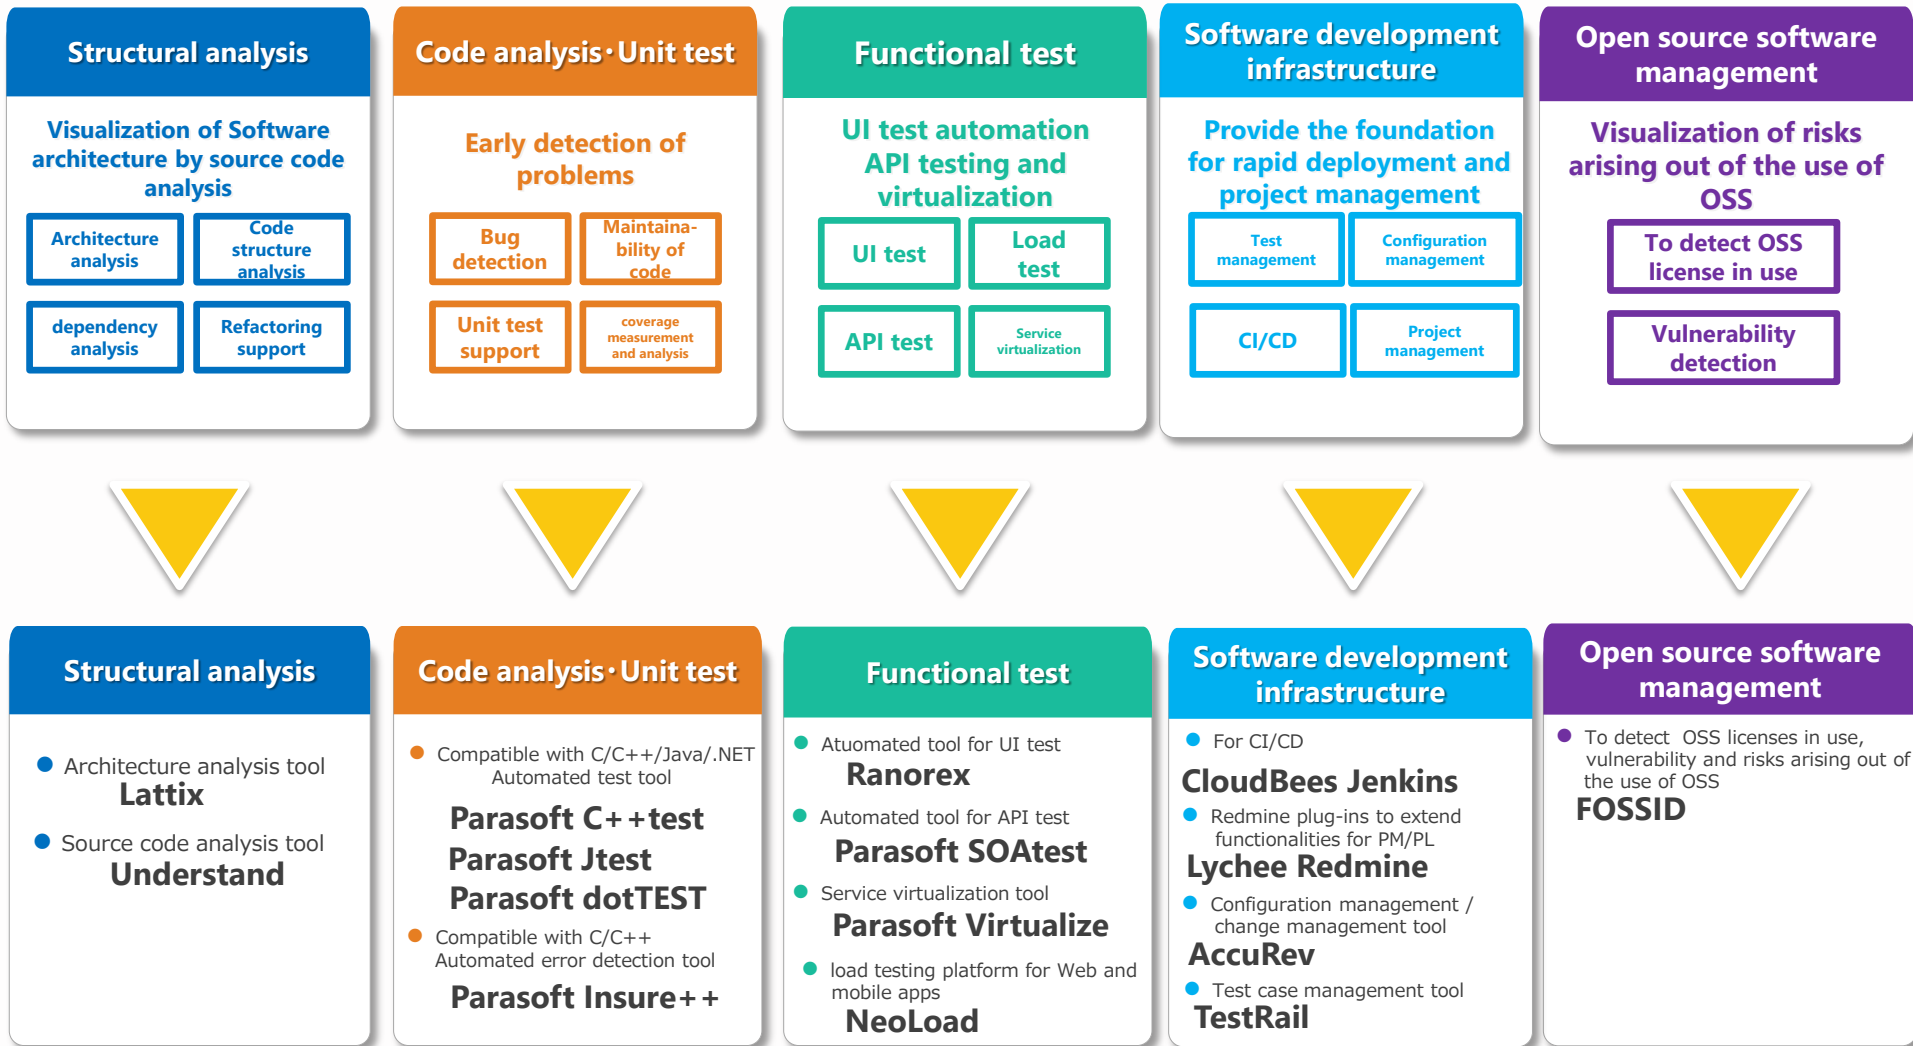

- ▶ Solution for test, systems design and version control system
- ▶ Integration of infrastructure, training and operation support for development process
- ▶ Support for substantive improvement of software quality and productivity enhancement

**Improve quality of embedded software**  
**Comply with functional safety standards**

# Software Quality Assurance field

# SOLUTION

# Financial field

**Point!**

Provision of risk management systems for financial institutions who manage financial assets so that they can maintain financial strength.

Financial assets of individuals and companies

**financial institutions**  
(institutional investors)

- Bank
- Trust Bank
- Shinkin bank
- Life insurance company
- Non-life insurance company
- Securities
- FX trading
- Mutual aid association
- . . .

**Investment products**

- Bond
- Stock
- Investment trust
- Forward exchange
- Derivatives
- Loan deposit . . .

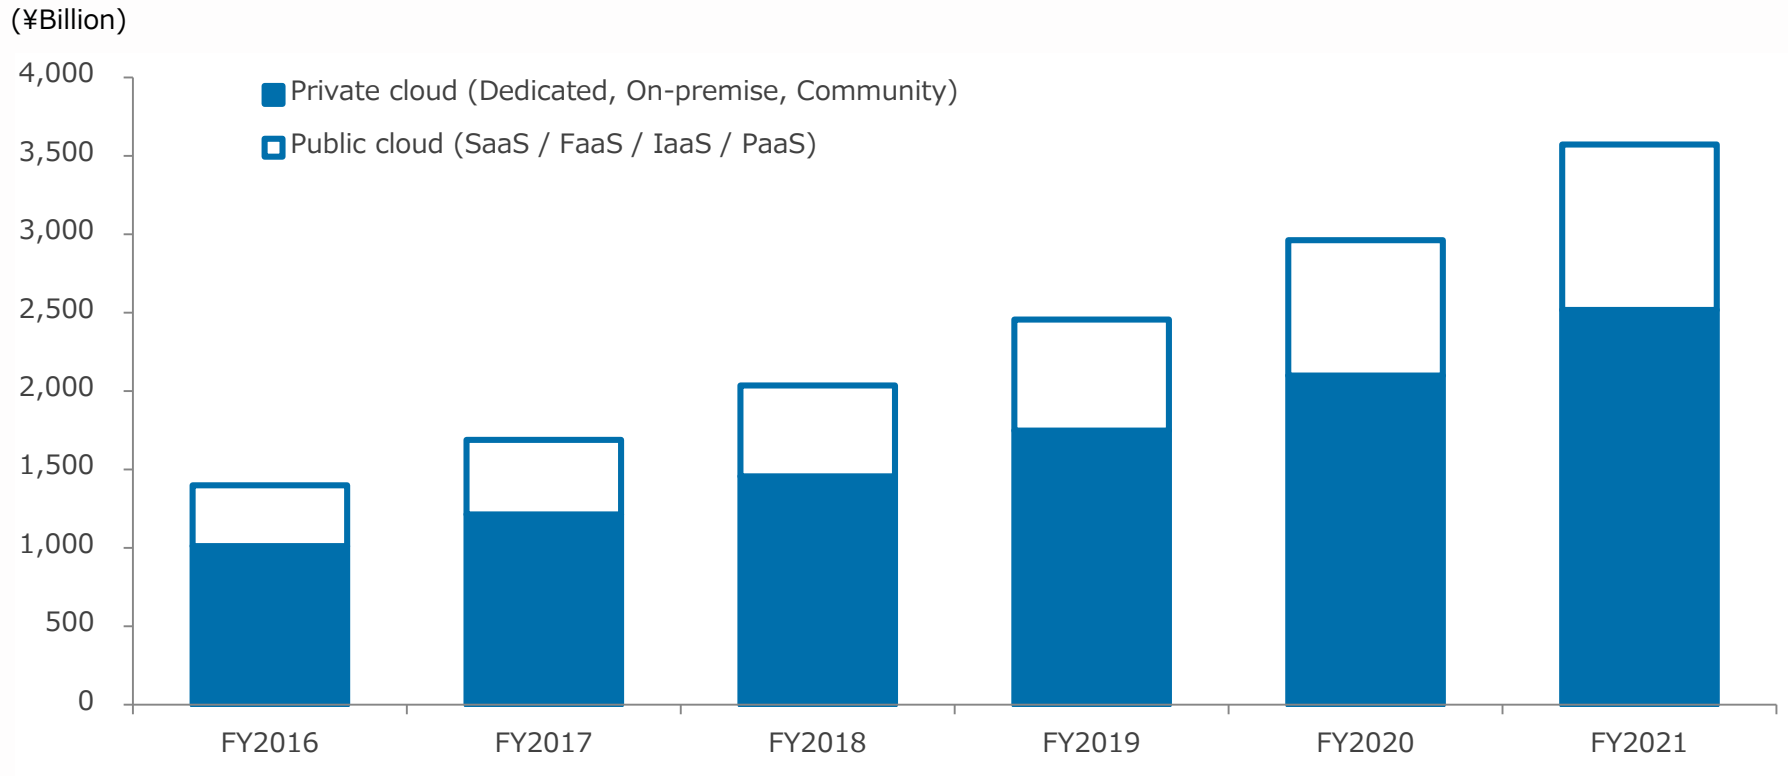

- Market risk
- Credit risk
- Price fluctuation risk
- Foreign currency risk

We measure various risks of financial assets (portfolio) using these systems.

# 5. Market Conditions for our business

## Market Conditions for our business

◆ Domestic cloud market size was ¥1,400.3 billion in 2016 (38.5% up year on year) and it expand to ¥3,571.3 billion in FY2021.

\* Reference : Cloud business market report 2017 (27,Dec,2017) by MM Research Institute

## Cloud PACS market size estimate (Japan)

\* Estimate as of Jan, 2019

■ Number of contracted facilities

—■— Estimated capacity

◆ Number of contracted facilities using cloud PACS was forecasted to be 1,304 as of the end of FY2019 in Japan.

◆ NOBORI has successfully contracted with about 950 facilities as of the end of FY2018.

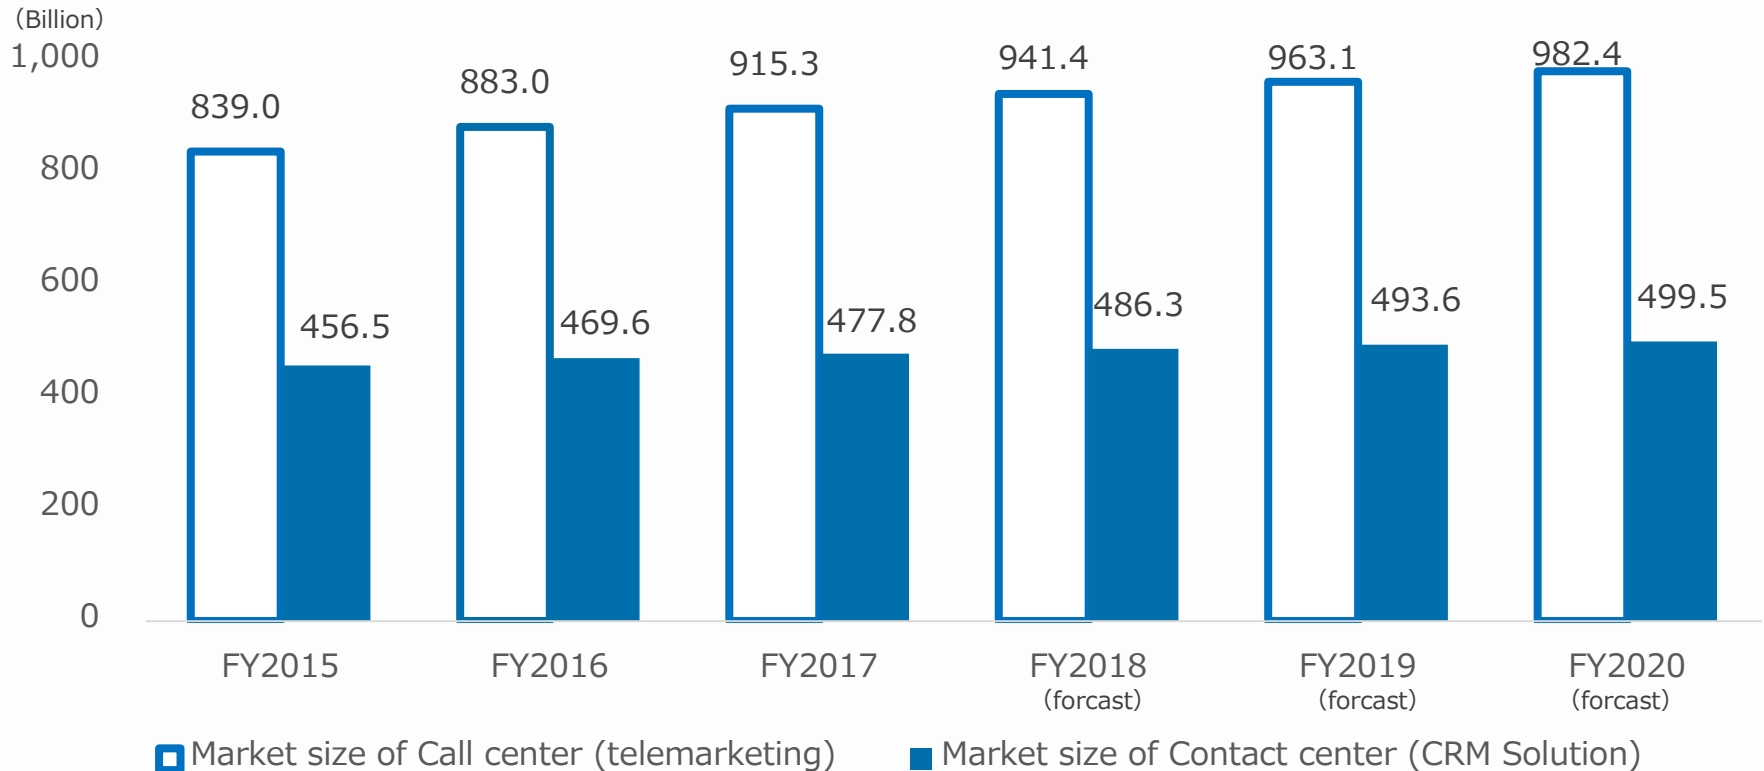

\* Reference : 矢野経済研究所「2018年版医用画像システム (PACS) ・ 関連機器市場の展望と戦略」 (2019年1月)

## Type of PACS Cloud

Cloud type	Brief summary	Feature	Configuration image	NOBOR I
TYPE 1	Store both short term and long term data in a in-house server + data center (dual storage for all data)	Data back up in a data center Additional costs		—
TYPE 2	Store short term data in on-premise servers + long term data in a data center	Frequently used data in a hospital Additional costs		—
TYPE 3	All data in data center without in-house server (only cash in NOBORI appliance)	No additional costs and lower price range		

◆Techmatrix is ahead in the healthcare cloud business with "NOBORI" which is installable at a low price and in short term.

## CRM software market size (Japan)

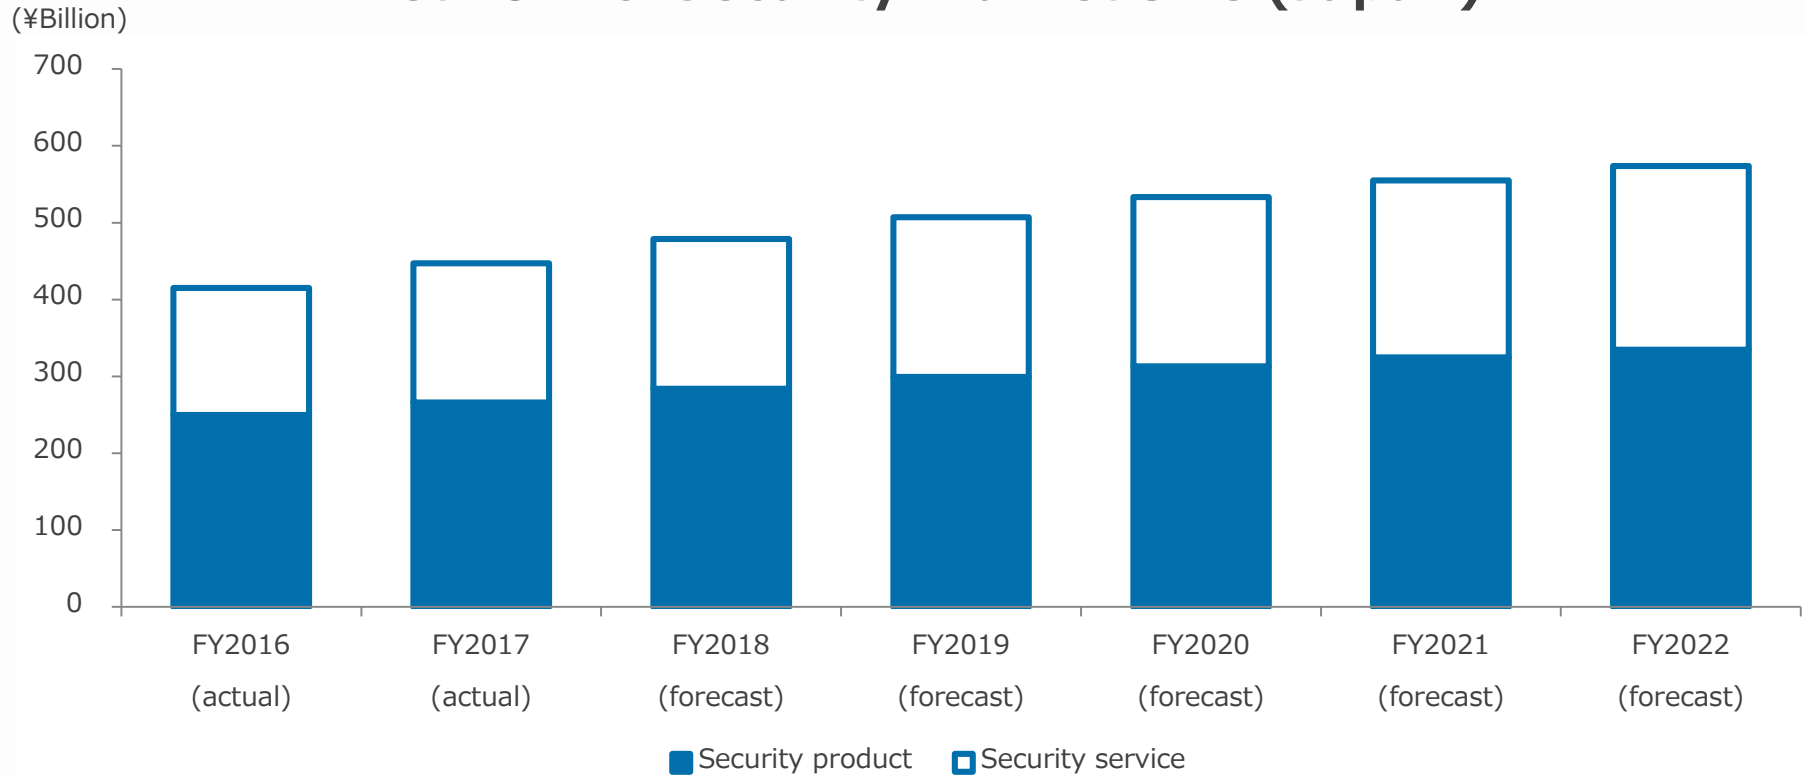

\*Service provider's sales. Estimate as of Oct, 2018

◆Market size of Call center (telemarketing) is forecasted to grow at average rate of 3.2% each year form FY2015 to FY2020 and to ¥982.4 billion as of FY2020.

◆Market size of Contact center (CRM Solution) is forecasted to grow at average rate of 1.8% each year form FY2015 to FY2020 and to ¥499.5 billion as of FY2020.

\* Reference : 矢野経済研究所「コールセンターサービス市場/コンタクトセンターソリューション市場の調査 (2018年)」

## Network & Security market size (Japan)

- ◆ Forecasted Networks Security business market in Japan expanding from ¥447.1 billion in FY2017 to ¥573.5 billion in FY2022.
- ◆ High growth rate on average at 5.1% has been forecasted.
