We are distributing cutting-edge, competitive and fast-growing products mainly from North America for relatively niche market segments, which were found by using our insights based on our long years of experiences in this field. Also, we provide services covering the life cycle of system usage, including maintenance, operation and managed services, which are highly value-added and attempt not to remain in simple product sale.

TechMatrix provides secure and highly reliable total IP network infrastructure solutions that are cost-effective, ranging from Green-IT, virtualization, Software-defined network (SDN), security to storage technologies.

CROSS HEAD and Okinawa Cross Head Co., Ltd., which are consolidated subsidiaries, primarily provide after-sale services such as maintenance, operation and managed services and also provide temporary dispatch and employee placement services for IT technicians. Also, they provides SDN, storage, security and call center products.

Trend of the IT system investment has shifted from "ownership of equipment" to "usage of services." Techmatrix Group provides the information infrastructure solutions for the service companies such as telecommunication, cloud and IDC and for each enterprise company as well.
