**Editorial policy**

This comprehensive report on financial and non-financial information was edited as an Integrated Report to disclose information to and promote dialogue with various stakeholders, such as shareholders and investors.

**Period covered by the report**

Fiscal year ended March 31, 2023 (April 1, 2022 to March 31, 2023)

Some parts of the report may include information on activities outside the above period.

**Notes on forward-looking statements**

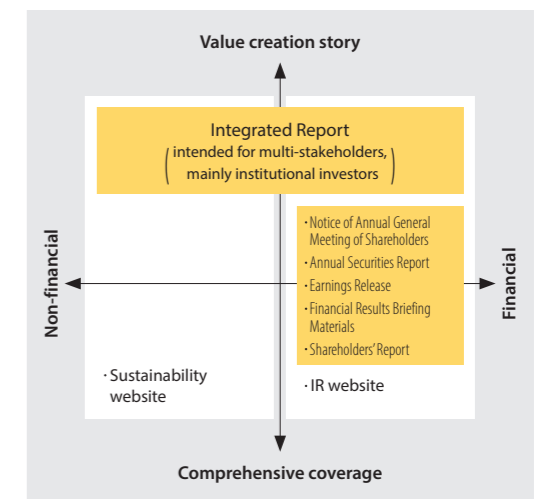

Forecasts, plans, and outlooks concerning future performance presented in this report are considered reasonable by the Company's management based on currently available information. Actual results may be substantially different from these forecasts, plans, and outlooks due to changes in various factors.

**Referenced guidelines**

In editing this report, the Company referenced the International Integrated Reporting Framework proposed by the International Integrated Reporting Council (IIRC) and the Guidance for Integrated Corporate Disclosure and Company-Investor Dialogue for Collaborative Value Creation proposed by the Ministry of Economy, Trade and Industry.

**Structure of information disclosure tools**

**About the cover**

• As the IT professional group who create a better future, TechMatrix rolls out a variety of businesses. The cover expresses how our business activities provide a better future for people in a wide range of fields and generations.

# About TechMatrix

## What is TechMatrix?

### Characteristics of Our Business

#### Matrix of technologies and vertical markets

The company name TechMatrix comes from the concept, "matrix of technologies and vertical markets." This is a matrix where the vertical axis represents industry-specific vertical markets (medical, call center, education, finance, automobile, etc.) and the horizontal axis represents technologies. There are many intersections on the matrix. Paying attention to these intersections, we will keep embracing new technologies and embarking on new businesses.

Vertical markets (vertical axis)	Technologies (horizontal axis)
<ul style="list-style-type: none"> <li>• Medical</li> <li>• Call center</li> <li>• Education</li> <li>• Finance</li> <li>• Automobile</li> <li>•</li> </ul>	<ul style="list-style-type: none"> <li>• <b>Application</b> Software for efficient and effective functioning of business processes Scope of provision <b>SaaS</b> (business support software, testing tools, BI, AI)</li> <li>• <b>Middleware</b> Software used in common for application development and execution Scope of provision <b>PaaS</b> (databases, APIs, operating systems, virtual networks)</li> <li>• <b>Infrastructure</b> Hardware and equipment to operate software Scope of provision <b>HaaS/IaaS</b> (servers, storage, network devices, security measures)</li> </ul>

### Business Portfolio

#### Six solutions

TechMatrix not only provides applications and technologies for business use but listens to clients' challenges, finds the best solution for them, provides new technologies, and takes charge of the implementation and maintenance of those technologies.

### Locations (as of March 2023)

# TechMatrix Solutions for Creation of a Sustainable Society

Digital technologies are built into society at every level, and as efforts accelerate to promote business model reform through DX (digital transformation), industry structures are bound to undergo significant change in the process.

Going forward, the TechMatrix Group will contribute to the creation of a sustainable society by accelerating business in areas indispensable to society and industry, and by providing services to solve social issues.

## Creating a sustainable society

## IT platform

### Sustainability initiatives

▶ P.31 Solving Social Issues Through Business Activities

To create a sustainable society, we contribute to the achievement of the SDGs through our business activities and the provision of solutions.

#### Sustainable Development Goals (SDGs)

The Sustainable Development Goals are international goals to achieve a better, sustainable world by 2030. They are included in the 2030 Agenda for Sustainable Development, adopted by the United Nations Summit in September 2015. Comprising of 17 goals and 169 targets, the SDGs pledge that no one on earth will be left behind.

SDGs	Target	TechMatrix Group's solution
<b>3</b> Good Health and Well-being	3.6 3.8	<ul style="list-style-type: none"> <li>● <b>Software quality assurance</b> Development support for cars of the future</li> <li>● <b>Medical</b> Medical information cloud services, PHR services, etc.</li> </ul>

<b>9</b> Industry, Innovation and Infrastructure	9.1	<ul style="list-style-type: none"> <li>● <b>Network security</b> Support for the creation of secure network environments</li> </ul>
<b>10</b> Reduced Inequalities	10.5	<ul style="list-style-type: none"> <li>● <b>Business solutions</b> Business solutions for financial service sector</li> </ul>

Application Services Business    Medical Systems Business

### Business applications

#### Recognition of social issues

There have been increasing needs for IT use to improve business operations and reduce costs for resolving customer inconvenience.

#### Value provided by TechMatrix

We provide best practices in business through cloud-based business applications with a sophisticated user experience (UX) that is easy for anyone to use and various software development tools for customers to accelerate in-house development.

Information Infrastructure Business

### IT platform

#### Recognition of social issues

High levels of information security measures are sought after, in response to socially threatening cyberattacks that invade computer systems and steal important information.

#### Value provided by TechMatrix

Through network, security, cloud, and AI services, we provide cybersecurity solutions that ensure the safety and security of social infrastructure essential for life.
