2. Forecast for Fiscal Year ending March31, 2026

Software development costs for EdTech businesses

- ■Change in method of recording software development costs for EdTech businesses
- The entire remaining carrying amount of capitalized software development costs was impaired in the previous fiscal year.
- This fiscal year, as in the past, forecasts were prepared based on the assumption that assets related to software development will be recorded as assets.
- After consulting with the auditing firm, we decided to record the entire software development costs as sales and general administrative expenses (research and development expenses).
