Information Infrastructure Business

Provision of infrastructure technology that underpin cloud era

Category	Solution	Main products	Remarks
Network	<ul style="list-style-type: none"> • Getting rid of the destabilization of the Web sites by the access concentration • Expanding storage capacity without a system stop and backup 	<ul style="list-style-type: none"> • Top share in the load balancer market F5 Networks • Technology leader in the scale-out NAS storage market EMC (Isilon) 	<ul style="list-style-type: none"> • continuously growing by gaining benefit from the expansion of EC businesses
Security	Comprehensive security measures	<ul style="list-style-type: none"> • Top share in the one-time password cards (user authentication) EMC (RSA) • A leading security company McAfee • Next-generation firewall Palo Alto Networks 	<ul style="list-style-type: none"> • Increasing cyber-attacks • TechMatrix's own managed security service called "TRINITY"

We are distributing cutting-edge, competitive and fast-growing products mainly from North America for relatively niche market segments, which were found by using our insights based on our long years of experiences in this field. Also, we provide services covering the life cycle of system usage, including maintenance, operation and managed services, which are highly value-added and attempt not to remain in simple product sale.

TechMatrix provides secure and highly reliable total IP network infrastructure solutions that are cost-effective, ranging from Green-IT, virtualization, Software-defined network (SDN), security to storage technologies.

CROSS HEAD and Okinawa Cross Head Co., Ltd., which are consolidated subsidiaries, primarily provide after-sale services such as maintenance, operation and managed services and also provide temporary dispatch and employee placement services for IT technicians. NCL Communications K.K. (another consolidated subsidiary) provides SDN, storage, security and call center products.

Trend of the IT system investment has shifted from "ownership of equipment" to "usage of services." Techmatrix Group provides the information infrastructure solutions for the service companies such as telecommunication, cloud and iDC and for each enterprise company as well.

Application Services Business 1/3

Provision of solutions for vertical markets

Field	Customer needs	Main partners	Remarks
Healthcare	Pursuing efficiency in management of healthcare institutions	<ul style="list-style-type: none"> •Diverse sales partners •Electronic patient record vendors •Medical equipment (modality) vendors 	<ul style="list-style-type: none"> •"NOBORI", a Cloud service for healthcare information •Promoting regional Integration of the Healthcare Enterprise •Small and mid-sized hospitals (100-400 beds) •Over 500 customers

In the Healthcare field, mainly on a self-developed product, we provide the Integrated Information System for various medical imaging equipment such as CT, MRI, Endoscope, Ultrasonic equipment and PET in medical institutions. A consolidated subsidiary, Ichigo LLC which was established with plural radiology specialists and co-funded, provides IT infrastructure to support **teleradiology** in the healthcare field.

Field	Customer needs	Main partners	Remarks
Contact Center CRM	Facilitating operations in contact centers	<ul style="list-style-type: none"> •Bell system24 •NTT Data •CTC •PBX vendors 	<ul style="list-style-type: none"> •Top-class customer base in number •Joint development of the product •Customers ranging from large centers (more than 1,000 seats) to small centers

In the CRM (Customer Relationship Management) field, we provide high-quality CRM systems to improve customer-satisfaction, which can manage customer-facing records from multiple channels (telephone, e-mail, Web and fax). "Fast Series" (a self-developed product) also flexibly addresses in-bound, out-bound contact center, FAQ, internal help desks and other operations. These systems can run not only conventional "on Premise" but also on the Cloud service (FastCloud).

Application Services Business 2/3

Provision of solutions for vertical domain

Field	Customer needs	Main customers	Remarks
Internet Service	<ul style="list-style-type: none"> •Development of EC sites •Highly-reliable mission-critical systems <p>Financial field</p> <ul style="list-style-type: none"> •Advanced risk management systems •Trading system for complex financial derivatives 	<ul style="list-style-type: none"> •Rakuten Group, Riskmonster, Pal-system, NTT DoCoMo, •Bank, Insurance, Securities, Financial firms •IT firms 	<ul style="list-style-type: none"> •Sustaining businesses from existing customers in good standing •Expanding "Raku-Raku back office" a cloud service •Targeting the derivatives trading at the financial firms which looks ahead to regulatory reinforcement

In the Internet field, we undertake the development of custom-made applications, ranging from EC sites to mission-critical internal systems mainly using Web-based technologies. To meet customers' needs reflecting their corporate strategy and vision, we provide system planning, consulting services, requirement definition, design, development / testing services based on the standardized processes and secure maintenance / operation services. CASAREAL, inc., which is a consolidated subsidiary, provides the system development by using state-of-the-art open source software and training services for skill-development of IT technicians

In the Financial field, we have accumulated knowledge and expertise in the financial services industry by specializing mainly in risk management, asset-liability management (ALM) and fair valuation of complex financial derivatives and portfolios using financial engineering techniques.

Application Services Business 3/3

Provision of solutions for vertical domain

Field	Solution	Main products	Remarks
Software Quality Assurance	Improvement of software quality	<ul style="list-style-type: none"> • Top share in testing tools PARASOFT (Exclusive distributor) • Source code analysis tools Lattix and Scitools (Exclusive distributor) 	<ul style="list-style-type: none"> • Distribution and marketing of a variety of tools • Consulting service for functional safety (to comply with standards)

To develop high-quality software at a lower cost, customers need systematic testing and debugging operations based on consistent policies for software quality control and security. We provide best-of-breed tools and consulting services to cover all the software development life cycle.

Our target is embedded software for intelligent home appliances, car navigation system, OA equipment, smartphones, automobile, medical equipment and robots, as well as mission-critical applications in the financial industry. For example, in the car production, compliance with the international standards about the Functional Safety of the embedded software led by Europe and America is required.

Investment ratio of subsidiaries

5 consolidated subsidiaries

Ichigo LLC

Corporate overview

Name	Ichigo LLC
Location	Within TechMatrix Corporation 10-8 Takanawa 4-chome, Minato-ku, Tokyo
established	August 1, 2007
Representative	CEO Yuji Kano
Paid-in capital	¥150 million
Business activities	Provision of IT infrastructure to support teleradiology in the healthcare field

iCOMBOX

Both are our customers;

- The medical institutions where the image diagnosis is needed
- Radiologists who intend to begin teleradiology services

The Ichigo LLC does not intervene in the contracts about a teleradiology services which are concluded between radiologists and hospitals. We provide only information infrastructure which realizes teleradiology in an independent position and support both customers.

- The number of customers is over **420** from a service start of April, 2008
- The number of medical images transmitted monthly is about **138,000** (38% market share)
- No.1 market share in teleradiology infrastructure services in Japan with over **600** radiologists registered
- Case studies
 - ✓ Medical check-up facilities of a major automobile company
 - ✓ Carrier support project at Shimane University Hospital for female doctors (Ministry of Education, Culture, Sports, Science and Technology)
 - ✓ Others
 - TOKAI University Hospital,
 - TOYOHASHI Medical Center (National Hospital Organization)
 - Tokushima University, Okayama University
 - Global connection with doctors in U.S.A., France and Netherlands

TOYUHASHI Medical Center

CROSS HEAD

Corporate overview

CROSS HEAD

Name	CROSS HEAD
Location	20-3 Ebisu 4-chome, Shibuya-ku, Tokyo
established	September 14, 1992
Representative	Masami Cho
Paid-in capital	¥395 million
Corporate Philosophy	Based on "an advanced network technology and human skill", we aim at "the value provider" which can realize the growth of the customer businesses and contribution to the society by creating "the scalable network".

ICT SOLUTION BUSINESS

Multi-vender solution such as an open source, managed service, virtualization, workflow and groupware to solve a variety of problems at the customers

ICT SERVICE BUSINESS

Housing, managed service, operation and on-site maintenance services for multi-vender

Core competence

《 The power of talented people who are full of human being powers 》

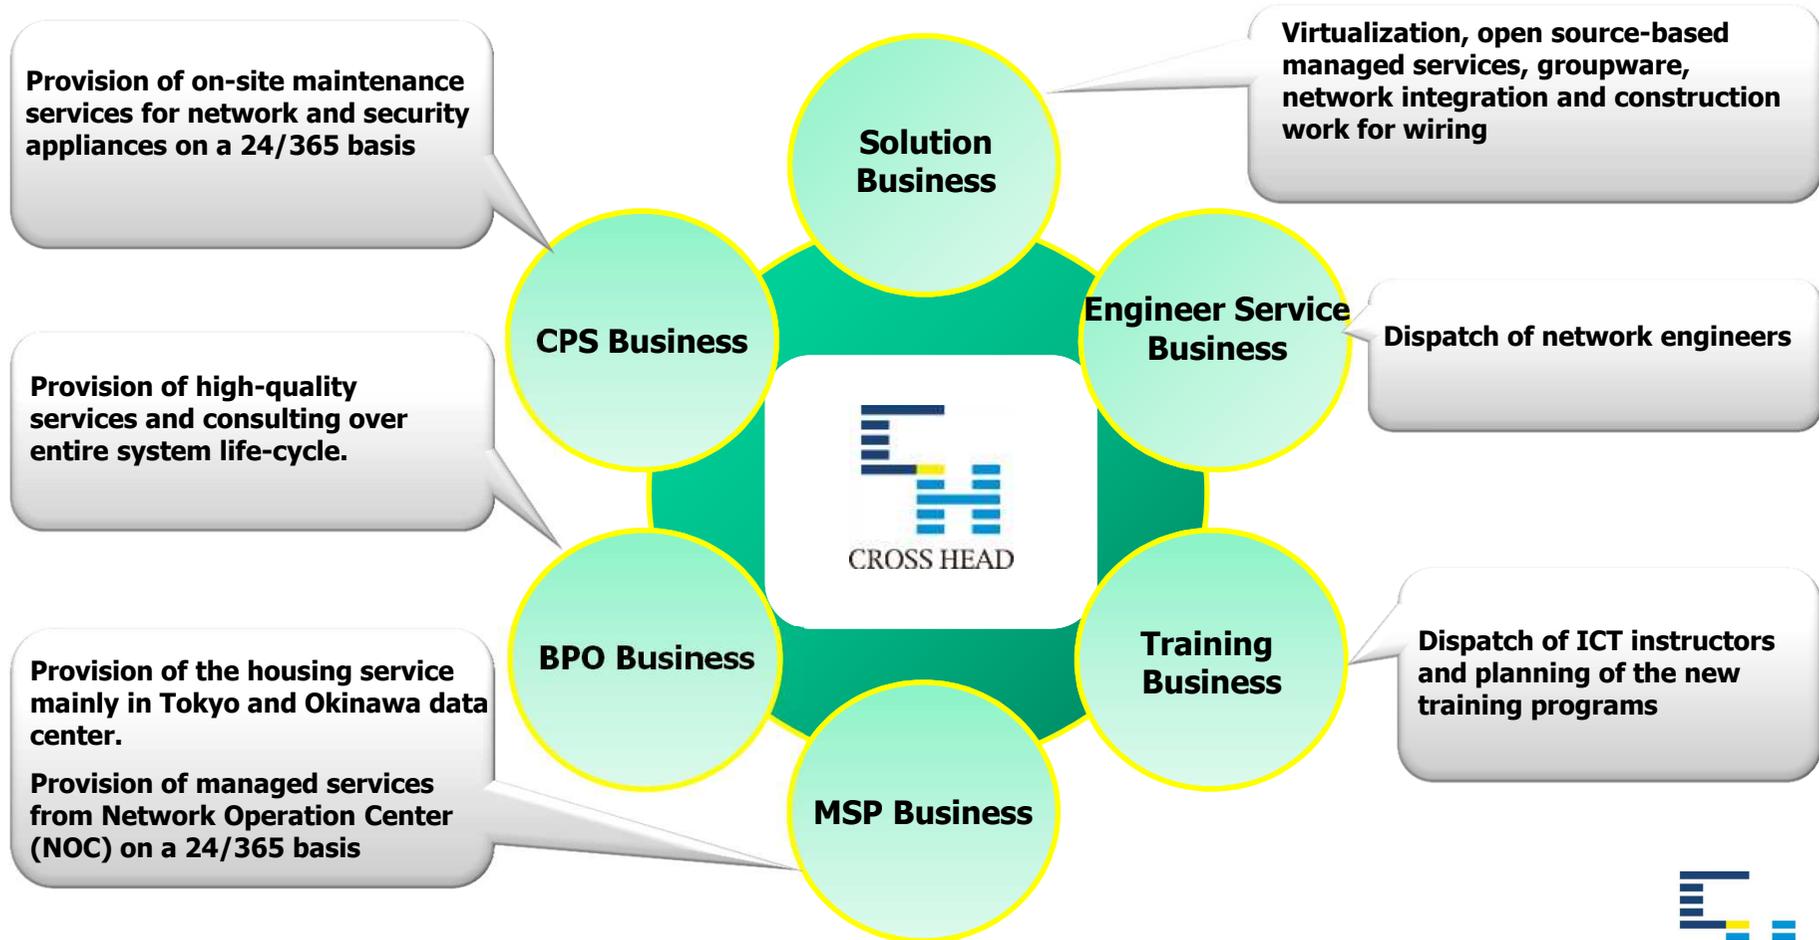

We lay emphasis on the training of our employees, and our excellent engineers, i.e. the source of the collective strength, enable Cross Head to offer high-quality ICT services.

CROSS HEAD

CROSS HEAD

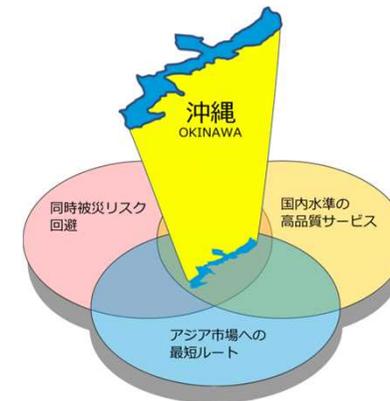

Core business

Okinawa Cross Head

Corporate overview

Name	Okinawa Cross Head Co., Ltd.
Location	1-9 Asahimachi, Naha, Okinawa
established	June 21, 2006
Representative	Tokashiki Tadaaki
Paid-in capital	¥51 million
Corporate Philosophy	Connecting Okinawa to the mainland with an IT network technology, and contributing to the development of IT industry and IT engineering resources in Okinawa.

Core competence

Expanding businesses based on products and services related to ICT, network and Data Center, taking the geographical advantage of Okinawa, from Okinawa to outside, including Asia

In IT market, Okinawa has three big market values for both end-user companies and IT service providers.

1: Superiority of the location (evasion of the simultaneous devastation risk)

2: Superiority of the distance (the shortest route to the Asian market)

3: Superiority of the cost performance

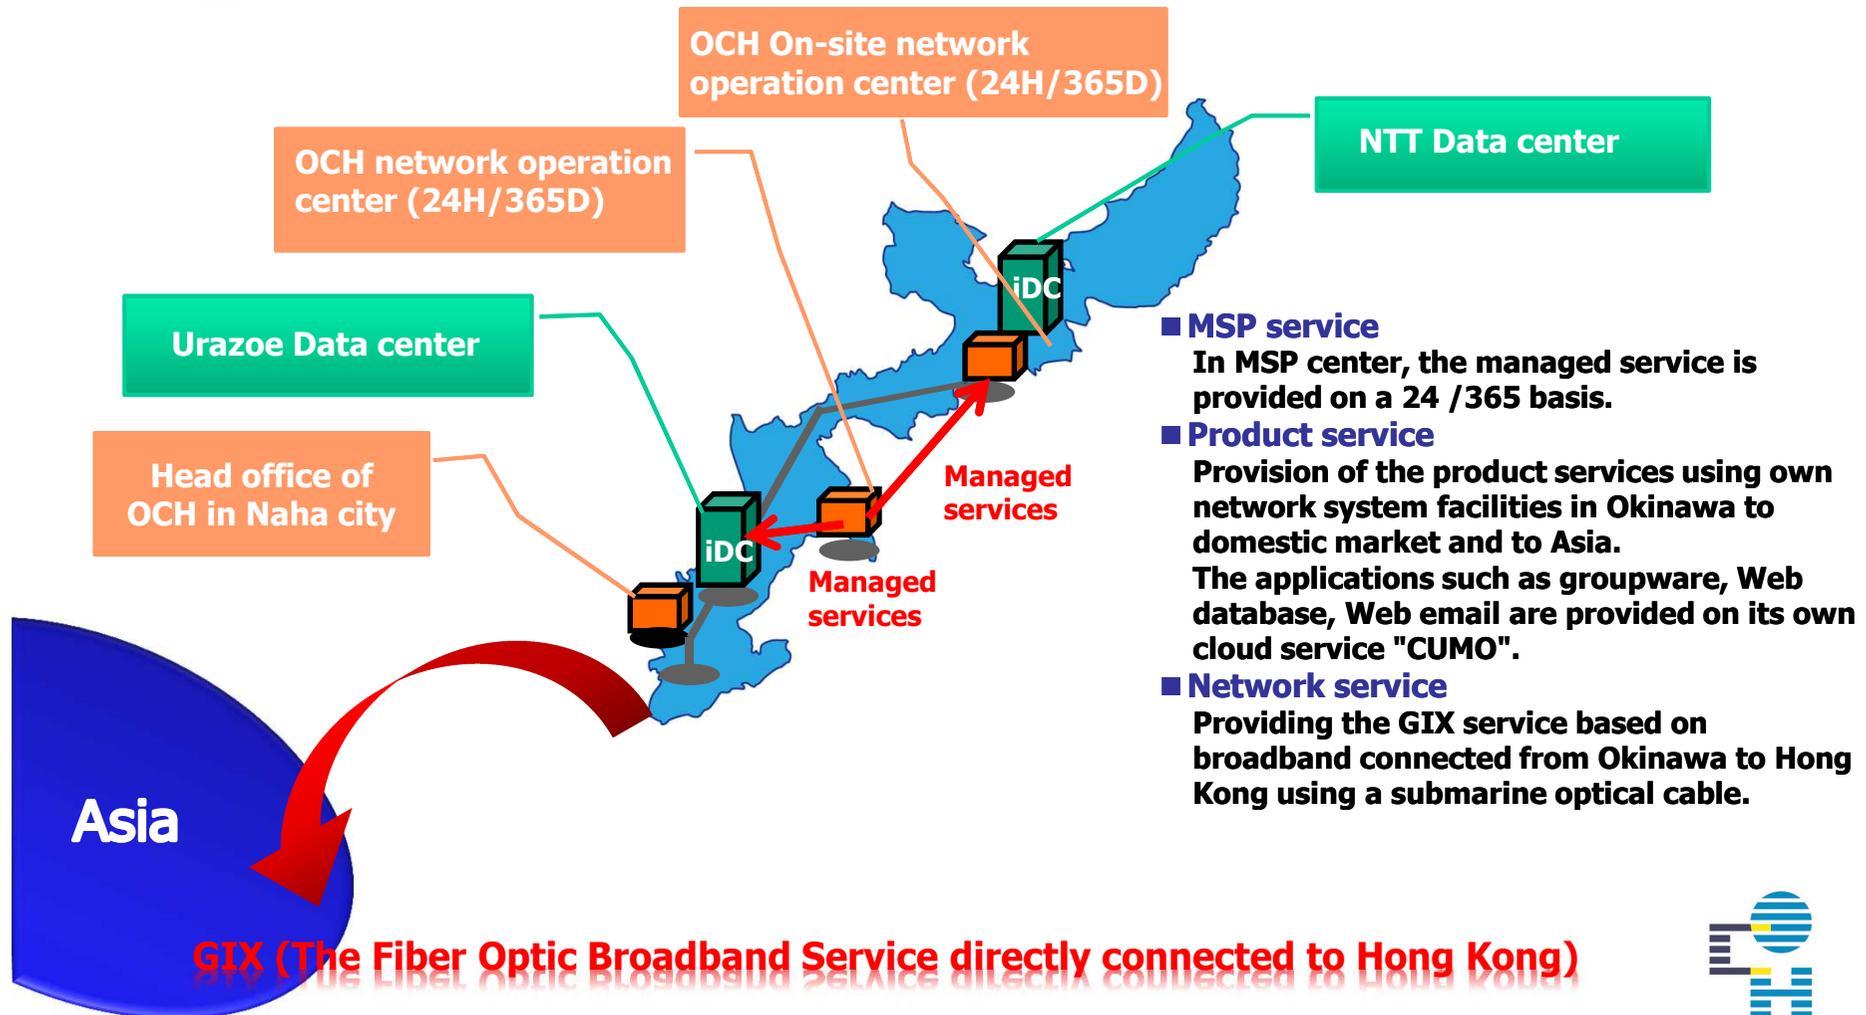

(Providing high-quality services of the domestic standard at a low price)

OKINAWA CROSS HEAD

Okinawa Cross Head

Core business

- **MSP service**
In MSP center, the managed service is provided on a 24 /365 basis.
- **Product service**
Provision of the product services using own network system facilities in Okinawa to domestic market and to Asia.
The applications such as groupware, Web database, Web email are provided on its own cloud service "CUMO".
- **Network service**
Providing the GIX service based on broadband connected from Okinawa to Hong Kong using a submarine optical cable.

Name	NCL Communications K.K.
Location	20-3 Ebisu 4-chome, Shibuya-ku, Tokyo
established	March 13, 1986
Representative	Takashi Sekine
Paid-in capital	¥116.18 million
Corporate Philosophy	The realization of the vision by three management philosophies. "Realization of the satisfaction of customers, partners and employees", "Exploitation of new markets" and "Pursuit of the social mission"

Core competence

We have accumulated technical expertise and successful track record in "open network business", "endpoint security business" and "large-capacity storage business" as an IT trading company for many years. We discover the superior ICT technologies and products from countries worldwide and are good at rapidly developing the domestic market.

■ Open Network Business

- Unrivaled expertise and knowledge on OSS-based SDN hardware and programming such as Trema and Ryu
- Strength for accumulated SDN construction know-how

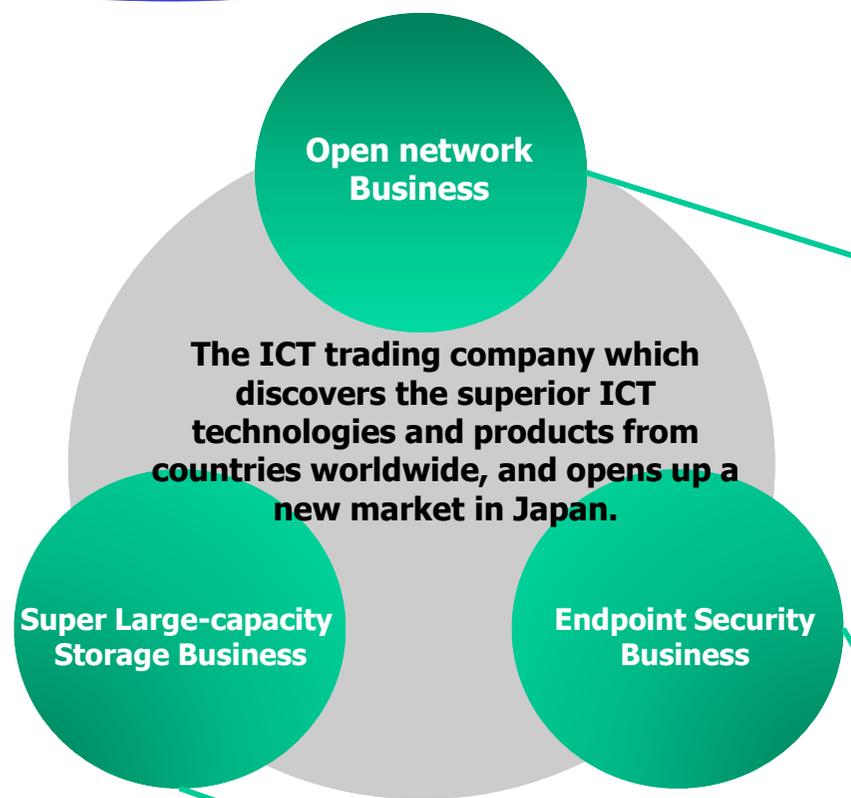

■ Endpoint Security Business

- Provision of the solutions including HDD encryption, external device control and management of operation logs
- Realization of the strong endpoint security corresponding to information leakage incidents widely reported recently
- Growing customer base ranging from private enterprises to government agencies and police-affiliated offices

■ Super Large-capacity High density Storage Business

- Super large-capacity high-density storage solution for the Big data era
- Products with power saving and space-saving features, corresponding to storage virtualization technologies

Core business

Virtual network solution by *OpenFlow*

SDN Controller:
self-developed product

Endpoint Security
